Everyone should be able to make their own decisions. In America we were fortunate enough to have freedom. Come along and I'll show you some of the privileges of having freedom.

To begin with, we have the freedom to vote for what we think is right. My mom votes every year. Just last week I went with my mom to vote. I couldn't vote yet, but at least I could watch. As you can see with freedom you can vote.

Secondly, we have the freedom to go to school. For instance, some people, in other countries, don't get to go to school but in America we do. Ever since I was 5 years old I have had the opportunity to have an education. Because of my freedom of education I can grow up to be whatever I want - maybe even President.

To conclude, in America we have freedom and we're proud of it. Beep! Beep! gotta go it's time to go vote with my Mom.
