I like america because
you are free to go any where
or do any thing you like. Also
there are no kings or queens.
There are only rules called laws.
that you must obey.

Also I like america because
we are the richest country in
the world. Also you are free
to practice any religion
you like. But the last thing
I like is my dad served 25 years
in the u.s army. So that america
could be the land of the free.
