America is not a free country because at Walmart we have to pay for the food, clothes, and things. We also have to pay for the toys. And the library makes us pay when we lose a book.

Also bad guys are not allowed. America is also thinking about kicking out the Mexicans. They already have in Arizona. You have to pay for just about any object. You have to pay the private schools just to get in. And police always make you pay for being speedy. You have to pay for gas too. You have to pay the water and electric companies. Americans payed for Alaska more than 2 million dollars. Which is pretty cheap. You have to pay for airplane rides too.
